WORK EXPERIENCE

July 2014 – ~ Linktera Bilgi Teknolojileri A.Ş.

Sector - Department - Position	: Senior Manager
Branch / Expertise	: DWH, ETL, Reporting, SAS, Product Development

PROJECTS

Legal Reporting Product: BRM (Linktera)

To eliminate the large time loss in the process of creating critical reports that are required by legal requirements, errors in report results, and inconsistency between reports, data from different sections are consolidated and merged into a single reporting data warehouse. The product developed will enable the correct and timely preparation of all necessary reports for both regulatory/monitoring agencies and the customer's own needs.
